FOOD SALES BY STUDENT ORGANIZATIONS

Food items sold by student organizations must be:

(a) commercially prepackaged by a reliable vendor, and the organization or vendor selling and handling the food must comply with all city, state and University codes, rules and regulations governing the preparation and sale of food;

(b) foodstuffs grown, raised, or produced by the members of registered student organizations as a part of their members’ academic program or a majority of those whose members are enrolled in an academic program providing instruction in the growing, raising or producing of the foodstuffs to be sold.

In either case, a written request for the food sale must be submitted to the Ohio Union and must be approved by both that office and the chairperson of the academic department involved. No foodstuffs shall be sold on the Oval except by registered student organizations. Registered student organizations cannot operate vending machines on University premises.
